Ankit Yadav

Summary

Dedicated and proactive full-stack developer with hands-on experience gained through internships and personal projects. Proficient in a wide range of technologies, including MERN stack (MongoDB, Express.js, React.js, Node.js), Python, JavaScript, SQL, and Java. Leveraging a solid foundation in software development principles, I've successfully completed multiple full-stack projects, showcasing my ability to design, develop, and deploy scalable web applications. During internships, I actively contributed to the development of various features, collaborated with cross-functional teams, and gained valuable insights into agile development methodologies. With a passion for continuous learning and a drive to deliver innovative solutions, I'm eager to further develop my skills and contribute to dynamic projects as a full-stack developer.

Experience

OctaNet Services Pvt Ltd. - Intern

Lucknow, India

11/2023 - 12/2023

- Developed, tested, and deployed new features on web applications using HTML, CSS, JavaScript, and React.
- Implemented RESTful API endpoints with Node.js and Express.
- Built responsive user interfaces utilizing modern front-end technologies such as ReactJS.
- Utilized version control systems such as Git to manage source code repositories.
- Integrated third-party services into existing applications using JSON APIs.
- Optimized application performance by reducing response times and memory usage.
- Troubleshooted technical issues related to software development life cycle.
- Constructed complex SQL queries across multiple tables in PostgreSQL databases.

Activities And Honors

- **Student Club Participation:** Active member of the Computer Science Club, participating in coding workshops and group projects.

Volunteer Experience:

- Volunteer tutor at local coding boot camp, assisting beginners with programming fundamentals.
